Business Process Management Professional Certificate Program
June 13-17, 2016

The BPTrends Associates Business Process Management Professional Certificate Program is aligned with the International Association of Business Analysis (IIBA®) Business Analysis Body of Knowledge (BABOK® V2.0) and is endorsed by the IIBA. BPTrends Associates is also an advisor and contributor to the BABOK® V3.0.Attendees will earn 40 Professional Development (PDs) or Continuing Development Units (CDUs) for attending the entire certificate program or 8 PDUs for attending the Principles Class only.

Day 1

BPTA 101

Principles of Business Process Management (1 day)

This course is the foundation for all courses in the BPTrends Associates certification program.
It introduces the BPTrends BPM Pyramid and the Process Redesign Methodology. The course provides an overview and discussion of the principles, concepts and techniques required to transform your business from a traditional, functional organization to a process-centric organization. The course introduces a systematic approach and methodology for planning, monitoring, measuring and managing your company's business process performance and for redesigning and improving specific processes.

Day 2 - 5

BPTA 102

Introduction to Business Process Modelling, Analysis and Design (4 days)

BPTA 101 is a prerequisite for this course.
This course provides an introduction to the skills and techniques required to analyze and design new processes or to redesign and improve existing processes. This course presents the process analysis, modelling and design techniques and tools required to improve performance. Participants will learn to scope specific processes using graphical models to document results. They will learn how to define measurement techniques for evaluating outcomes and how to model As-Is and To-Be process workflows using BPMN notation. The course is organized around a universally applicable case study that will be developed by attendees working in teams. The approach is hands-on and business oriented andattendees will be able to immediately apply what they learn within their own organizations.
