

THE HISTORY OF MEDICINE TIMELINE PROJECT:

After reading chapter 1, you will create a timeline of events and important people from the history of medicine. Your timeline must include 25 people (I have provided the first 14), 20 important dates, and the answers to questions 2-8 below. This project is worth 60 points. You will be graded on: organization, creativity and number of required points plotted. I suggest separating the timeline according to periods and centuries. See example and charts in Ch 1.

List and plot 24 famous people (including their contribution to medicine, and the year of that contribution):

- | | |
|---------------------------------------------|--------------------------------|
| 1. Clara Barton _____
_____ | 13. Nightingale _____
_____ |
| 2. Hippocrates _____
_____ | 14. Freud _____
_____ |
| 3. daVinci and Michaelangelo _____
_____ | 15. _____
_____ |
| 4. Fleming _____
_____ | 16. _____
_____ |
| 5. Pasteur _____
_____ | 17. _____
_____ |
| 6. Roentgen _____
_____ | 18. _____
_____ |
| 7. Laennec _____
_____ | 19. _____
_____ |
| 8. Leeuwenhoek _____
_____ | 20. _____
_____ |
| 9. Pare _____
_____ | 21. _____
_____ |
| 10. Fahrenheit _____
_____ | 22. _____
_____ |
| 11. Jenner _____
_____ | 23. _____
_____ |
| 12. Harvey _____
_____ | 24. _____
_____ |

NAME: _____ HOUR: _____

List and plot 20 important dates in the history of Medicine:

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____

16. _____

17. _____

18. _____

19. _____

20. _____

NAME: _____ HOUR: _____

1. What year was the first sheep was cloned _____
2. What year was the Human Genome Project completed _____
3. What year was the first **artificial heart** placed in a human _____
4. When was the printing press invented and why was this important _____

5. What is the Renaissance period also known as _____
6. What period of time the average life span was 20 years _____
7. Who were the earliest people (period of time) to maintain accurate health care records
_____ What did they record these records on _____
