

# Free Download: Real Estate Business Plan Template

Every business needs a plan to succeed; a plan gets you and your team on the same page and heading in the right direction. A good real estate business plan shows you where you are today, where you want to be and how you'll get there. It also helps you measure your performance, and recognize where and when you need to make a course correction.

Our customizable template helps you create a real estate business plan that outlines what you'll do, how you'll do it and what success looks like—for you and your clients. Jot down your business goals, clarify the status of your finances, profile your target customers, and more.

To populate the template, simply place your cursor in a **highlighted field** and enter the information. After you populate your template, save it to your laptop. Remember that your real estate business plan is a living document and you should expect to revisit and update it regularly.

Our business plan template covers the following topics:

## [Market overview](#)

What is happening in the market our target customer operates in? How has the market behaved in the past few years? Where do we see this market going in the future? What circumstances affect this market?

**Example:** In the past six years, the housing marketing for first-time homebuyers in the Pacific Northwest has been steadily growing at an average annual growth of 3 percent. This percentage is expected to grow in large part due to millennials—the biggest group expected to start purchasing their first homes—being attracted to careers offered by this region’s financially stable tech industries.
