

Honeymoon Pixie's Ultimate Packing List

We have created the **Ultimate Packing List** to help you pack for your honeymoon or for any travel. For every trip, print out this list and use the checkboxes as you pack. It will help keep you organized and will minimize any worry about forgetting something.

It is unlikely that you will need everything on this list, so simply draw a line through items that are not needed. In the event you forget to pack something, you can usually buy it at your destination, whether in the US or abroad.

HoneymoonPixie.com has valuable travel resources that are **Free** for you to use. Click to visit: [Honeymoon Shopping](#), [Travel Destination Guides](#), and the [Web's Ultimate Travel Links](#).

Please share this Packing List with your family and friends!

To Do Before You Leave

- Rent an international mobile phone specific to your destination - or verify that your current phone will work properly
- Check the CDC (Center for Disease Control) website for immunization requirements
- Reserve a rental car
- Book tours and admissions online
- Contact post office to hold your mail
- Stop newspaper delivery
- Arrange for someone to pick-up any deliveries (wedding gifts, etc.) at your home
- Arrange for pet care
- Obtain foreign currency from your bank 2 weeks before your trip (if traveling abroad)
- Check weather forecast 1-2 days before you leave
- Request your honeymoon gift funds from HoneymoonPixie.com 5 days before your wedding
- Notify credit cards and banks of travel plans, destination, and travel dates
This is crucial. The banks security software will automatically put a freeze on credit cards when they detect large purchases, usage that does not match your normal pattern, or usage in another country.
- Obtain international 800-numbers to call your credit card companies in an emergency
- Scan passport, credit cards, itinerary and any other important documents and then email a copy to yourself and to family or friends. If your passport is lost or stolen, you can then access this information from a computer in a foreign country. Scan in color. Kinko's and most office supply stores can do this for you.
