

# My Family Tree

Do you know you have a family tree? Family trees are interesting and fun, and always growing. Once you make the tree, you will be able to easily see how everyone is related. So what does your family tree look like? To find out, write the names of your family members on the leaves. Be sure to use the maiden names of the moms. If you can, include the birth place and birthday for everyone. Place the leaves on the tree in their family groups. See this sample tree for an idea about how to organize your tree. If you have a small family, just throw away the leaves you don't use. If you have a large family, print an extra page of leaves.
