As businesses are gathering in Kuala Lumpur for the CSR Asia Summit, the UN Global Compact, Save the Children and UNICEF are holding the Children's Rights and Business Principles Asia Regional Event in Kuala Lumpur. This event will build on the numerous national releases of the Children's Rights and Business Principles across the Asian continent. It will reflect on the progress made for children's rights in the work-place, marketplace, community and environment, as well as evaluate opportunities and challenges unique to Asia.

By evaluating unique opportunities and challenges in the region, the event will provide a chance for businesses to learn from one another, civil society and other stakeholders. It will contribute to strengthen local as well as regional solutions for children and businesses.
