

Doctor's Note for Air Travel during Pregnancy

You must have your designated **obstetrician** complete this form to confirm that it is safe for you to fly on an aircraft.

This check list is to evaluate the patient passenger's health status by aviation medical doctor of Korean Air, and will be used for the patient passenger's air transportation purposes only. We might contact the attending physician for further information, in needed.

This document will be kept for 10 years, and you have the right not to agree. If you provide us inaccurate information, authorization might not be issued for the passenger's air travel.

If the obstetrician is unable to use this form, then the information may be included in the medical certificate or the doctor's note of the applicable hospital (medical institution).
