

Message board template:

Hey Friends,

Have you heard of the Compost Pedallers? These guys are making it simple to reduce your waste with 100% bike-powered weekly compost collections. They provide you with a little green bin to collect your kitchen scraps or “scrapple” which gets cleaned by their Pedallers each week with some organic spearmint soap.

The really cool part is all of your food scraps are donated to nearby urban farms & community gardens to help grow more local food. It doesn't get much greener than that! Checkout all their “compHosts” [HERE](#).

If you have been thinking about composting, you should definitely check the Compost Pedallers out! Learn more at www.CompostPedallers.com.

Tweet templates:

- Ready to start composting? @Compedallers got you covered. Reduce waste, support local, earn rewards. Check them out: <http://ow.ly/KvRmW>
