

**HEAD OFFICE:**

Sigmer Technologies  
The Sussex Innovation Centre  
University of Sussex  
Falmer, Brighton  
East Sussex, BN1 9SB

## PHP Developer Job Description

Sigmer Technologies is seeking to fill the key position of PHP Developer in our Brighton Office and we are looking to fill the position as soon as possible.

Sigmer Technologies provides an exciting range of software applications including our Survey Suite and Incentivise systems. Check out our sites at [www.treatmonster.com](http://www.treatmonster.com), [www.incentivise.com](http://www.incentivise.com) and [www.surveysuite.com](http://www.surveysuite.com). We also develop applications and solutions for a wide range of corporate, charity and public sector clients. From a complex rule-based on-line database application for Heineken to a high-security desktop application (a case management system) supporting up to 100 users for the Risk Advisory Group.

The Company was founded in 1999 and is based in The Sussex Innovation Centre at the University of Sussex, Falmer, which is close to Brighton and is where the majority of our staff are located. The University campus is a fun place to work with lots of amenities and good public transport links and easy parking.

Our core service and product offerings include:

- IT consultancy.
- Development of our package systems
- Application and Database design and development
- Website design, development and hosting

We have our own server racks with dual backbone connections providing a high-availability hosting for our clients including BskyB, Heineken, The International Save The Children Alliance, The British Ecological Society.

### About the role

Sigmer Technologies Ltd is looking for a PHP Developer to work in our Brighton office. We are looking for people who are interested in developing their career with us, as we develop our software team.

Successful candidates should enjoy working in a well-managed team environment; have the enthusiasm and ambition to complete projects to the highest standard and want to be part of an organisation that has high quality values.

We are looking for individuals with an ambition to succeed!

### Skills required

We are looking for talented developers to join our team; ability and commitment is more important than current skill set. Candidates with all levels of experiences will be considered from graduate through to Senior Developer.
