Every week, our network of 14 *With One Voice* choirs inspire people from more than 40 nationalities, aged 9 to 90, to sing side-by-side. Age, race, language, religion, disability and disadvantage fade away. Executives, migrants, seniors, students, people with disabilities or mental illness... **everyone is welcome.**

Choir is a place to de-stress, find friends and mentors, improve wellbeing and connect to networks, skills and employment. Through the **Wish List**, participants grant one another wishes like job interview practice, CV-writing and free music lessons. It's all about **joy, freedom** and **inspiration.**

We believe **empowered individuals** and **supportive communities** are better-placed to solve some of society's big challenges, like cross-cultural integration, unemployment, loneliness and isolation, family fragmentation and more.

Neuroscience proves singing makes you happier, healthier, smarter and more creative... but the *With One Voice* program offers so much more. This is why we're the passionate leaders of a singing movement... to build communities and change the world, one voice at a time!

In 2013, the *With One Voice* program was named one of Australia's top social innovations.

Join us to celebrate the joy of song!
