### Guidelines

1. The area to be cleared will be the paved residential driveway from the street to a safe distance from any structures/obstacles.
2. Driveways will be cleared once per 24-hour period, when driveway snow depths reach approximately 3 inches. Plowing times are dependant on snow accumulations and may vary from day to day. Snow is plowed to, and stored at, on-site locations.
3. Though we accept responsibility for damages caused by driver error, Affordable Snow Removal is not responsible for damages to unseen or unmarked objects, or driveways which are unable to withstand normal snow removal operations. Driveways with less that three inches of snow and/or two inches of asphalt, or whose bases are water saturated or poorly compacted, are examples.
4. Owners, tenants, guests or any other present party will not hold Affordable Snow Removal responsible for any accidents which occur on, or around, the driveway before, during or after snow removal which do not directly involve our equipment.
5. Owners, tenants, guests, etc. agree not to place any obstacles in, or along side of, the driveway. If obstacles are present, Affordable Snow Removal will not plow that portion of the driveway. Owners, tenants, etc. should snow stake any altered portions of the driveway, which could become invisible to equipment operators during snowy conditions or nighttime hours. Should snow removal equipment become disabled due to debris left in the residence's driveway, the contracting party signing below will be invoiced at \$125.00 per hour equipment rate for the time that repairs must be conducted to bring the equipment back into service. The total sum billed to the home owner is not to exceed cost of repairs incurred by the incident.
6. If, for any reason, the contracting party wishes to cancel this agreement, Affordable Snow Removal will charge all previously rendered work at \$100.00 per plow (not to exceed the amount of the contract), refunding the unused balance of the snow removal fee.
