

How to make a contact sheet in iPhoto:

1. In iPhoto select your photos for the contact sheet. Use the apple key to be able to skip over photos.

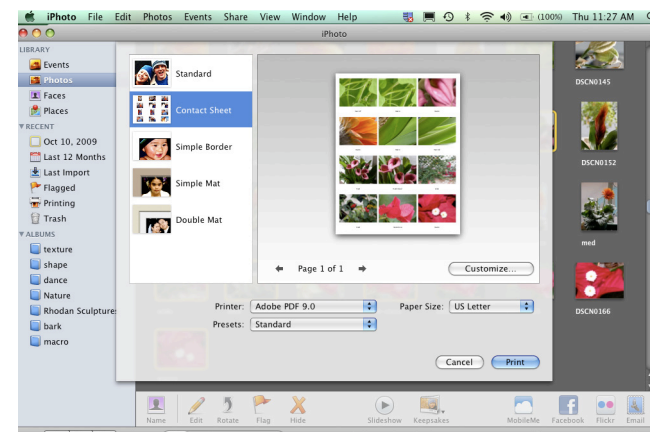

If assigned to name the photos go to the Menu to View to titles. Then you can change the file name by clicking on it and typing in the new title.

2. Go to the menu to File to print.

3. In the print window choose contact sheet.
4. Click on print.

5. In this print window click on the pdf button on the bottom left. Choose save as pdf. Name it and save it in your Contact Sheet folder.
