Format for Agendas and Minutes

Any attempt to provide a specific format for minutes within the College of Nursing will extend to a format for agendas. This will allow for consistency of these two documents as well as the agenda serving as a guide for the person recording the minutes. The following format has been adopted by the Dean's Council:

- Heading. This will include identification of the specific committee.
- Time, date, and place of meeting
- Members present. The person presiding should be identified
- Members absent
- Action on minutes of previous meetings
- Announcements - This is from the chair and/or members.
- Committee or subcommittee reports - When appropriate, this may include action items presented by members.
- Unfinished business - This includes any items carried from previous meetings requiring action or discussion including tabled or postponed motions. In some cases unfinished items may be carried from the previous year.
- New business - This includes any item not presented to the members at any previous meeting time during the academic year.
- Adjournment
- Recorder's signature

Attachments

All drafts and written material used by the membership in reaching a decision should accompany the minutes with designation in the minutes, i.e., "See Exhibit A." The chairperson of the committee is responsible for maintaining the attachments and exhibits for the dean's office files.

Action Items in the Minutes

All items requiring a vote of the members should be indented in the body of the minutes and numbered in consecutive order. For example,

> MOTION #1   P. Bailey moved that the Alumni Day become an annual event.
> Seconded by J. Smith. Motion lost after discussion.

According to Robert's only motions carried must appear in the minutes, but frequently failed motions need to be in the minutes in order for the actions and activities of the committee to be a part of the permanent record.

If the action item represents a policy, the minutes should reflect the following information:

1. Date the policy is forwarded to a subsequent committee or body such as University Senate (if necessary)
2. Date to be implemented

When a policy has been approved by all appropriate channels, it is added to the Faculty Handbook with the following information included:

1. Date approved and/or accepted by the committee of origin
2. Date approved and/or accepted by the faculty
3. Date approved and/or accepted by the University Senate, if necessary
4. Date the policy is to be implemented. If the policy is a revision or replaces an existing one then notation of this should be made. For example, "This policy revision replaces the one dated July 4, 1994."

All action items taken by any committee during the year should be summarized in the committee's annual report. This activity provides a logical and consistent indexing for action items and policies considered by the various committees during the academic year.
