Photography Club

Mission:

- Cultivate and broaden the photographic interests of students
- Promote photography as an activity of professionals through education, guidance, social interaction and cultural enrichment.

Community Engagement:

The Edmondson-Westside High School Photography Club will be involved in the creation of (PSAs) Public Service Announcements to inform the public of school events, raise awareness of various community, local, national issues, and potentially stimulate interest and action surrounding education.

Student Involvement:

Students will learn photographic composition and gain histological understanding of photography. Students will explore photography through research, individual and collaborative projects. Students will develop stronger personal vocabulary, reading and problem solving skills.

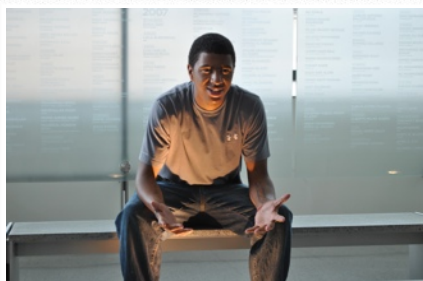

Parental Involvement:

Parents will support students in the exploration of photography by accompanying them on field trips, engaging students in opportunities to utilize acquired skills and attending student exhibitions.

Hosted by Mr. Evans every Monday from 3:30-4:30 in room 151 in the Westside Building.
