

American Blending & Filling is a Contract Packaging Company serving the needs of Blend and Fill as well as Secondary Packaging for companies across the United States. Our customers include many of the largest consumer product companies in the personal care, household, automotive, and food markets.

We are currently seeking an experienced **Analytical/Quality Control Chemist** with a minimum of 2 years experience in cosmetic, pharmaceutical or related industry. This person will be working daytime hours on Tuesday through Saturday and will be located at our manufacturing facility in Waukegan, Illinois. The open position is described as follows:

### **Analytical/Quality Control Chemist**

The primary function of this position is to provide analytical chemistry support to manufacturing and R&D at American Blending & Filling.

#### **Responsibilities:**

- Approve batches, incoming raw materials, and routine analysis of the different samples to classify their physical and chemical identity.
- Must be able to perform analysis from the following analytical equipment: FT-IR, CG, HPLC, KF-TITRATOR, REFRACTOMETER, SCALES, OVEN, PYCNOMETER, ETC.
- Maintain all analytical equipment according to the schedule and Standard Operating Procedures.
- Complete all paperwork related to the analysis (Calibration Log, Finished Goods Log, Raw Materials Log, ETC.)
- Ensures that all work meets applicable QA/QC guidelines.
- Validation and development of analytical methods, also validation of manufacturing equipment, production lines and products.
- Review and Update test methods and procedures according to SOP.
- Prepare reports to document findings and recommendations.
- Coordinate with personnel in other disciplines to integrate findings and recommendations.
- Must be have computer skills (Word, Excel and instrumentation software)
- Strong interpersonal, writing, and multi-tasking skills with the ability to work in a team.
- The Chemist reports directly to the Director of Technical Services at American Blending and Filling.

#### **Job/Educational Requirements:**

- BS Degree in Chemistry or Equivalent
- A minimum of 2 years related professional experience

#### **What we offer:**

Salary will be commensurate with experience. We offer a comprehensive benefits package to include medical, dental, and life insurance, paid vacation, 401(k), profit sharing, tuition reimbursement, and more.
