

Ansaldo NES Project Management

Ansaldo NES

Ansaldo NES Embrace Project Management as a core competence of the business managing projects through industry best practices.

Ansaldo NES project management is structured to deliver multi-disciplined engineering solutions through dedicated integrated Project Team (IPT's) to the nuclear decommissioning, defence and nuclear new build markets.

Ansaldo NES specialise in design through manufacture to commissioning and installation of high integrity bespoke solutions. Delivered through world-class in-house manufacturing facilities, and over 50 years experience in the nuclear industry.

Project Management Highlights

- Fully versed with Nuclear Decommissioning, Defence and Nuclear New Build market requirements.
- Specialist integrator of engineering to manufacturing.
- Aligned with APM best practice
- APM Accredited Project Manager
- APM Corporate Accreditation
- Extensive Europe wide Supply Chain

Ansaldo NES Expertise

Extensive experience gained through project delivery has resulted in Ansaldo NES becoming fully conversant with the relevant European Directives and Standards, as well as the specific requirements of major UK customers, including Sellafield Ltd, Babcock, AWE, MOD, Nuvia, EDF, Rolls Royce, Areva, Magnox and Costain.

The Project Management Team are fully SQEPed and have vast experience across all the key industry sectors, with a proven track record of delivery on some of the UK's most demanding projects. Ansaldo NES utilises processes which have been developed in line with APM best practice, further honed by ensuring Learning From Experience (LFE) is captured and fed back into every new project.

Proven Track Record

The Ansaldo NES Project Management Team has a proven track record in successfully delivering innovative contracts to the nuclear decommissioning and defence sectors.

Experience developed over 50 years in the nuclear industry ideally positions Ansaldo NES to meet any nuclear decommissioning and nuclear new build project requirements.

Ansaldo NES' track record of delivery into the defence market is equally impressive, with specialist tooling and techniques developed for work on the current UK submarine fleet. Ansaldo NES are approved suppliers to the MoD, providing onsite servicing and spares for over 20 years.

Future Direction

Ansaldo NES is a corporate member of the Association for Project Management (APM). The Company has been working closely with the APM to develop a best-in-class training and development programme for all project personnel, many of whom are already APM members.

This programme will help ensure that all Ansaldo NES Project Engineers and Project Managers maximise their potential, helping the business meet its project delivery goal of continuing to improve its already industry-leading standards, further exceeding our customer expectations. This core goal will be achieved through formal training, leading to qualifications in

APM membership and can be followed up with a specifically designed Career Development Structure with accredited APM service providers (QA/Aikona). This will ensure that individual Project Engineers and Managers continue to develop in line with the APM competency framework towards Registered Project Professional (RPP) status, whilst significantly increasing the Overall project delivery competence of Ansaldo NES' projects team.
