FileMaker Platform

The FileMaker Platform allows anyone to create custom apps that meet the unique needs of their business – even without extensive development experience or IT skills.

The FileMaker Platform is made up of the following products:

- FileMaker Pro is simply powerful software used to create custom apps that work seamlessly across iPad, iPhone, Windows, Mac, and the web. Easily build your own custom app to meet the unique—and changing—needs of your business.
- FileMaker Pro Advanced includes all of the features of FileMaker Pro plus a set of advanced development and customization tools. Get features to design and develop custom apps faster and easier.
- FileMaker Go is available free on the App Store and runs your FileMaker-based apps on iPad and iPhone. Create custom apps with FileMaker Pro then use FileMaker Go to easily share information with your team while on the go.
- FileMaker Server is fast, reliable server software used to securely share data with groups of FileMaker Pro, FileMaker Go, and FileMaker WebDirect users. Get 24/7 availability and reliability, remotely manage apps with ease, and save time by automating administrative tasks. Each client connects to FileMaker Server with User Connections.
- FileMaker Cloud provides secure, reliable access to your custom apps in the cloud. Get the simplicity and performance of the FileMaker Platform without having to spend time and resources deploying and maintaining a server.

Integration

The FileMaker Platform connects teams to multiple data sources, including: live, two-way links to common SQL sources as well as PostgreSQL and IBM DB2; integration with popular data formats such as Excel and PDF; and support for industry- standard APIs.

**FileMaker
Ecosystem**

The FileMaker Community is a free worldwide service for developers and users. Join the community: community.filemaker.com

The FileMaker Business Alliance includes nearly 1,400 firms whose primary business is to offer FileMaker products and consulting services.

The Made for FileMaker site lists hundreds of commercial products built for the FileMaker Platform including vertical products, solution frameworks, plug-ins, developer tools, scanners, books, and videos. View products: solutions.filemaker.com/made-for-filemaker

Extensive training options include classroom courses, the self-paced FileMaker Training Series, videos, and tutorials.

Annual FileMaker developer conferences are held in multiple countries offering a wide range of sessions from beginner to expert level. The largest annual FileMaker Developer Conference is held in the United States. For more information see: www.filemaker.com/devcon
