

INTERNATIONAL EVENTS PROGRAMME 2015

INTERNATIONAL EVENTS PROGRAMME 2015

This is the 2015 International Events Programme for Enterprise Ireland. The objective is to give our clients an opportunity to exchange ideas, to connect with existing and new customers, access key decision makers and increase sales in international markets.

For more information on this programme, please visit www.enterprise-ireland.com/events

Inward Mission
Inward Missions are events in Ireland to which groups of overseas decision makers are invited by Enterprise Ireland to meet prospective Irish suppliers. These missions are targeted at specific sectors.

Trade Fair
Enterprise Ireland organises group stands at many of the most important trade fairs and exhibitions across the world. Clients may take space on these group stands to showcase their products/services, meet new buyers/partners and gain market intelligence.

Client Knowledge Forum
Enterprise Ireland organises a wide range of events for clients to learn about new markets and sectors, market trends and developing skills in exporting. These events take place in Ireland.

Outward Mission
Outward Missions are events organised by Enterprise Ireland to which groups of Irish companies travel to an overseas market, to meet prospective business contacts in that market. Many of these missions are led by senior Government Ministers. The majority of these missions are sector specific.

Market Study Visit
With the objective of assisting clients to research new markets and sectors and trends in markets and marketing. Enterprise Ireland organises a series of study visits for groups of Irish clients overseas. These include study visits to markets, trade fairs and conferences.

Sales Lead Event
Sales Leads are events which Enterprise Ireland organises to create networking opportunities for Irish clients to engage with existing and prospective customers and partners. The majority of these are sector specific. Sales lead events always take place in the marketplace.

	Project Title	Date	Sector	Project Type	Location	Project Manager
