JOB DESCRIPTION

JOB TITLE: MIG Welder

JOB TYPE: Full Time

LOCATION: Quality Pipe Supports, Unit 1, Dyffryn Industrial Estate, Newtown, Powys, SY16 3BD.

SUPERVISOR/MANAGER: Factory Production Manager

MAIN DUTIES/RESPONSIBILITIES:

- ❖ Work mainly unsupervised welding supports that have been fabricated
- ❖ From time to time you may be asked to perform other duties outside of your normal welding duties depending on the work load and company needs.
- ❖ The RWC has a responsibility to inspect and either pass or fail all welds on jobs requiring EN 1090-2 as a welder at QPS you must respect and listen if necessary rework any welds that are not to specification.
- ❖ Weld fabrications and support assemblies from metal products, to a sequence of operation
- ❖ Comply with the companies ISO-9001-2008 policy on all aspects including requisition of welding consumables
- ❖ Familiar with welding symbols
- ❖ Weld carbon, alloy or stainless with the correct filler wires to code
- ❖ Ensure that the company health and safety measures are adhered to
- ❖ Ensure housekeeping standards are maintained within the work area
- ❖ Ensure your weldset is cleaned every week as per company procedure
- ❖ Minimise the wastage of materials and consumables
- ❖ Work without supervision towards achieving strict deadlines
- ❖ Work as part of a team and be able to discuss any arising issues with the appropriate engineer / Inspector or manager
- ❖ Complete all welding tasks on time
- ❖ Deal with engineers, inspectors and other employees professionally at all times
