

SAMPLE THANK YOU LETTER

Dear President Obama,

Thank you for offering a comprehensive birth through prekindergarten plan and supporting critical investments in your proposed budget.

I am [A PARENT, TEACHER, COMMUNITY MEMBER, SOCIAL WORKER, ADVOCATE, ETC] and I know how important high-quality early childhood education is to the future of our children and our country.

This plan is a significant step forward in helping to close the opportunity gap, and ensure that our children are supported in their early growth and development, while our families are supported in the workforce.

I applaud you and thank you for your leadership in making early childhood education a priority for your Administration and the country. By working together, I know we'll help ensure that culturally competent, effective teachers working across early childhood settings are engaging in strengths-based practice with high expectations in order to achieve positive outcomes for all of our children.

Thank you,
