**15 minutes Review Information for Afternoon Workshop**

**1 hour Lunch**

**3 hours Workshop**

This will be a partially facilitated workshop that will have the participants work together in small groups to review a submission to the primacy agency by a public water system using the templates. The purpose of the workshop will be to address areas where problems in the information submitted or the review by the primacy agency could arise and allow the participants to provide potential solutions to the problems. Time will be provided for the participants to work through a scenario and upon completion the scenario, the trainer will facilitate a discussion about the determinations made by the participants.
