March 1, 2012

**TO:** All School Site Administrators  
**FROM:** Carlos Garcia, Superintendent   
**RE:** 2012 SFUSD Stakeholders Satisfaction Surveys

The San Francisco Unified School District is committed to keeping our promises to our students and families (Goal 3 of the Balanced Scorecard). To keep this commitment, we need regular feedback from our stakeholders. As I did for the last four years, I am inviting you to rate your satisfaction with our schools and the District. The results of our satisfaction surveys will be used to continually improve our learning environments and will provide data for the District and schools' Balanced Scorecards. The stakeholders that we are surveying include students (Grades 5, 8, and 11), school staff, site administrators, and families. All surveys are anonymous and voluntary.

Included with this letter is a packet with school staff surveys. Student surveys will arrive by District mail in the beginning of March. The directions for administration of the student and school staff surveys will be included with each packet.

- School staff surveys should be administered at a faculty meeting, if possible.
- Student surveys should be administered only in Grades 5, 8, and 11.

Please return the completed student and staff surveys to our Research, Planning & Accountability Department (RPA) in the envelopes provided <b>by April 4.</b>
----------------------------------------------------------------------------------------------------------------------------------------------------------------

Family surveys will be sent to schools in mid April to be included in student homework packets and to be collected and returned by the schools by mid May. Parent Liaisons will support this process.

Because the satisfaction surveys are voluntary and anonymous, all student, family, and school staff survey results will be reported by district and school only, while the site administrator survey results will be reported by district only.

I understand that this is a busy time for the school sites and appreciate your time in the administration of these surveys. Thank you for all your efforts in helping us to obtain this valuable data.

**If you should have any questions, please contact RPA at 241-6454.**

# SFUSD School Staff Satisfaction Survey 2012

The purpose of this **voluntary** and **anonymous** survey is to obtain feedback from you on how our school district is doing in keeping our promises to our students and families—as described in our district’s strategic plan. The results reported will present aggregate district data and disaggregated school data that each site can use as a measure of its progress. The results of your survey will be reported by the District’s Research, Planning and Accountability Department next fall. Please include your own sheet of paper to write about any additional comment you may have. Thank you.
