October is Rotary Vocational Service Month

Vocational Service focuses on:

Adherence to and promotion of the highest ethical standards in all occupations, including fair treatment of employers, employees, associates, competitors, and the public.

The recognition of the worthiness of all useful occupations, not just those that are pursued by Rotarians.

The contribution of your vocational talents to solving the problems of society and meeting the needs of the community.

During October, Rotarians are encouraged to focus on this important avenue of Rotary service. Discussions on vocational service can lead to projects that not only develop the ethical consciousness and vocational skills of Rotarians but also the talents within their communities. Vocational Service Month is an opportunity to begin year-long vocational service activities, ranging from Rotary discussions to awards to community projects. Following are some suggested activities to undertake during Vocational Service Month:

Devote the first meeting in October to examining the second Avenue of Service, including [The Four-Way Test](#) and [The Declaration of Rotarians in Business and Professions](#). After expanding members' awareness, solicit their input in planning projects for the remainder of the year.

Introduce a "mini-classifications talk" series in which each member gives a five-minute talk on his or her vocation. Schedule one speaker for the beginning of each meeting until everyone has made a presentation. The purpose of these talks is to promote vocational awareness among Rotarians and help them recognize the worthiness of all useful occupations.

Present a vocational award to someone in the community who has exemplified outstanding professional achievement while maintaining very high ethical standards. Promote the presentation within the community, and consider making it an annual October event.

Invite experts to give a presentation on the vocational needs of the community and develop a project in response to those needs. Possible projects could focus on developing character, providing career information to youth, mentoring small businesses, or organizing workshops that provide employees with new skills.

Encourage Club members to put their vocational skills to work as [Rotary Volunteers](#). Volunteer opportunities are available on [ProjectLINK](#), a valuable resource that lists many vocational projects that clubs and districts can also choose to support financially or with donated goods. Project LINK also includes examples of successful vocational service projects that Rotary Clubs can model as they plan their own activities.

The Second Annual Amcham Taichung KIDZ Charity Gala

President Story,

Thank you so much for allowing me a few minutes today to talk about our Kidz Charity and our upcoming event.

I just thought I'd write a quick note to recap what I spoke about briefly today.

AmCham Taichung is currently involved in an ongoing fundraising effort to support the Hsiang Shang Social Welfare Foundation. Hsiang Shang Social Welfare Foundation includes the Christian Herald Orphanage and the Daniel A. Poling Babies Home. We provide two services for the children at these homes. First, we provide milk and juice to every child to help ensure they are receiving the vitamins and minerals they need to grow. Also, we are working to provide orphaned students at the Christian Herald Orphanage with the funds to complete their high-school education, as government education subsidies for these students stop at the age of 16. To see more about the Hsiang Shang Social Welfare Foundation, please go to <http://www.child-home.org.tw>

Throughout the year, we have several events to raise money for the AmCham Kidz Charity: The Kidz Chili Cookoff, the Whose Travel book exchange, The AmCham/TIGs Golf Tournament, The Annual Charity Dinner Gala, The Kidz Walkathon. 100% of proceeds of these events go to the Kidz Charity. Last year we raised a total of NT\$730,000 for Kidz, and unfortunately it's still not enough to ensure that all of the children at the Christian Herald Orphanage will have the funds to receive the High School education that they deserve. We have everyone covered this year, but as many of the children who were orphaned in the 9/21 earthquake grow into High School age the number of orphans we are trying to help is set to grow every year for the next several years.

The Annual Kids Dinner Gala is truly a wonderful night. This year, it will be held on **Saturday, August 21, at 7:00 p.m.** at the Taichung Windsor Hotel, 4th Floor ballroom. It is the biggest social event of the year. There will be live jazz, an 11-course dinner, an open bar, a silent auction and lots of fun. A lot of local corporate heads and business owners will be there. Taichung City Mayor Jason Hu and Director William Stanton from AIT are scheduled to be there, if their busy schedules permit [Deputy Mayor, James Hsiao and Deputy AIT Director, Eric Madison are **confirmed to attend in their stead, if they cannot**].

Also, if you would like to stay overnight, The Windsor Hotel is offering all guests to our Dinner Gala an excellent discount. The normal rate for a night's stay is NT\$8,800, but for dinner guests, the rate is discounted to NT\$3,520.

And the best part about this event is it's free! Guests are only asked to donate whatever they wish. All proceeds go to the Kidz Charity foundation. But because the Kidz Dinner Gala is by invitation-only, we ask that everyone attending RSVP at least 3 days before the event date.

It should be a fantastic evening and we'd be honored if you, your wife and any guests you wish to invite, would join us in this event.

Attached is a .pdf of the invitation card. If you would like an actual invitation card, I would be happy to send one (or several) to you, if you provide me with an address.

I very much hope to see you on the 21st!

Warmest regards,

Nathan Hines

Point of No Return. The time or place when, or at which, it's too late to change your mind about what you're doing and alter your course of action. The term comes from flying, as explained in the Journal of the Royal Aeronautical Society in 1941:

This three-engined operation data is used to determine our so-called 'Point of No Return.' Laymen are inevitably intrigued by this fatalistic expression. As a matter of fact it is merely a designation of that limit-point of departure, and beyond which such return is no longer practical.

The limiting factor is most likely to be the fuel supply, but it can also be whether the plane has gone more than half way on its projected journey.

Possession Is Nine-Tenths of the Law.

You are in a stronger position if you have something in hand or under your control than if you merely claim it. Once the expression was "possession is eleven points of the law," and it appears that way in B. Discolliminium, a book published in 1650. Whether eleven or nine, the idea is that nearly all [eleven of twelve, or nine of 10] of the points that may be raised in a legal action are in your favor.
