

## Project Management Certificate

Project management has gained tremendous importance in the past few decades. In the current environment where many companies are outsourcing their business processes, the ability to manage complex projects involving diverse teams both domestically and internationally has become an increasingly desirable skill for employers nationwide.

### About the Program

This on-line certificate program is ideal for:

- Project managers and team members in all areas of businesses who want to acquire or enhance their project management skills
- Project managers preparing to take the PMP certification examination.
- Business and non-business majors who are looking for online elective courses that may be transferable to their degree program

### Program Benefits:

- Networking opportunities
- Experience and insights taught by faculty who have extensive expertise in the project management field and apply what you learn to your current work
- Provides coursework that may be helpful for PMP Exam preparation
- Scheduling flexibility
- Educational support

### Academic Requirements of the Project Management Certificate:

#### PMGT 341 Basics of Project Management - 3 cr

*Prereq: None. Freq: Yearly.* This course covers Project Management Body of Knowledge (PMBok) specified by Project Management Institute (PMI) in detail. Project management topics include lifecycle, processes, integration, scope, time, cost, human resources, communication, risk and procurement.

#### PMGT 342 Essential Personal Skills for Project Management – 3 cr

*Prereq: None. Freq: Yearly.* This course provides students with a background in personal skills essential for effective project management, including general intelligence, emotional intelligence, groups and teams, project leadership, stress, ethics, and communication.

#### PMGT 441 Advanced Project Management Tools and Techniques - 3 cr

*Prereq: PMGT 341. Freq: Yearly.* Covers advanced tools and technologies of project management, including Microsoft Project and Microsoft Excel, Work Breakdown Structure (WBS), project budgeting, scheduling a project using PERT/CPM, allocating scarce resources, critical chain and critical path, resource leveling, monitoring the project costs, evaluating and terminating a project.

#### PMGT 442 Project Management Simulation - 3 cr

*Prereq: PMGT 341, 342. Freq: Yearly.* Topics include project scheduling, risk analysis, earned value, and teamwork. Students apply project management skills to a simulated or live project, develop project justification and project plan, and execute the project plan and track performance.

### How to Enroll - [Apply on-line](#)
