

Project Management Certificate

Be a successful project manager by developing a solid understanding of the fundamentals, process skills, and human relations necessary for project management

Project management is a critical, in-demand skill set. Being a successful project manager requires a combination of process skills (gathering project requirements) and human interaction skills (leading a project team). This certificate will provide you with a strong foundation in both the knowledge and the interpersonal aspects of being an effective project manager.

Project Management Courses (60 contact hours)

Required courses: 6

Elective courses: 3

Credits: 6.0 CEUs, 60 PDUs
CPEs and PDHs may also be available; check website for details.

Learning Outcomes:

- Lead and manage projects
