

## Instructions for Incident Reports

### Whenever an incident occurs:

An Incident Report form must be completed immediately after an incident occurs and couriered to appropriate Medical/Dental Director's assistant (see below).

An incident can be classified as one or any of the following:

- |                                   |                   |                         |
|-----------------------------------|-------------------|-------------------------|
| • Difficult interaction           | • Adverse outcome | • Patient complaint     |
| • Patient injury                  | • Staff injury    | • Occupational exposure |
| • Documentation/<br>Communication | • Lab issue       | • Medication issue      |

If a staff member sustained injury on the job, please forward a copy of the incident to HR and fill out an L&I form.

The form also contains sections to capture information regarding injury to persons, damage to property, and accidents.

Although you may not have sufficient information to initially answer all questions, it is important that the form be completed as fully as possible at the time of the accident. Do not delay sending in the report form; an incomplete form is better than none at all. Be certain to include your name and daytime telephone number where indicated on the form.

If you have any questions or need assistance regarding the completion of the Incident Report form, please contact your site/clinic manager.

DO NOT send or save electronically. Please print and mail off original copy and DO NOT make or maintain any copies of the incidents reported.

Only exception is if a staff injury occurs – Please forward a copy to HR.

Mail/fax the completed Incident Report to:
