

# Letter of Declination for Proposal Sample

Dear Anders Palgrem,

Thank you for your kind offer of providing gardening work for the Henderson business block and surrounding gardens.

However we regretfully have to decline the proposal as we already have several gardeners working for us and we are happy with the costs and results.

I do personally like the look of your portfolio and will definitely get in touch if circumstances change or we become aware of work needing doing at any of our other properties.

Take care,

Corey Greenwood
