It has survived not only five centuries it is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now.

But also the leap into electronic typesetting, remaining essentially and is unchanged. It was popularized in the 1960s with the release of Letterset is the sheets containing Lorem Ipsum passages, and more recently with the desktop publishing software like Aldus PageMaker including versions.
