Website Quotation for: www.jollyharbourshopping.com

Objective - Create a clean contemporary website which is easy to maintain via a client administration panel and optimised for search engines.

Website Structure

Page Name	Contents	Administration
Home page	To have a map which enlarges and offers links direct to all members business listing.	Advanced Content management with two zones , the main body text of the page, and the map key, so that as businesses change, business names can be updated.
Shopping	Summary page with links out to Arts & Crafts, Hair and Beauty, travel and Tours, restaurants & entertainment, real estate & household	Page to have thumbnail image and short description with link out to each shopping category, as well as sub navigation by drop down menu to each shopping category. The categories to be coded so that they rotate who is at the top of the page on each re-load.
Shopping category pages	Summary listing for each business within this category including a logo or thumbnail photograph, summary information, and contact details plus the option to upload a pdf or word document and links out to websites.	Create the administration to create a business name, select the relevant category of the 5 listed, assign a map location, and update contact details, have a pdf and word document uploading tool in the description text and an advanced content management system. The page to be coded so that the businesses rotate on the page on each re-load.
