Specifically:

- Did they make appropriate reference to policies, curriculum frameworks etc? How was this evident?

- Did you find that you were able to learn effectively under their leadership? If so, why? If not, why not?

- Did the presenters incorporate methodologies associated with at least 3 previous topics and how was this evident?

- How well did they manage the learning environment including the conduct of class members? Provide examples when they did well. Were there times that they needed to be more aware of management issues? When?

- What constructive feedback can you offer about their performance on the day? What changes could they have made to strengthen their presentation?
