Nena Sustainable Fashion Collection - Bags

We created the Sustainable Fashion Collections to work with Maya women in regions where there are very few income-producing opportunities. We hope to provide a way for them to have an income for their family. Typically, women take care of children, cook, clean, help their husbands with agricultural tasks, and in their "free" time produce textiles. The fabric used in the Sustainable Fashion Collections takes up to 8 hours to complete a single yard and more if there is embroidery on it! When you purchase from these collections you are helping create jobs and also provide freedom from poverty for the beautiful, hardworking women of the Maya highlands.
