Fire/Emergency Evacuation	•

Undergraduate Project Risk Assessment Form

Version No: Rev 1

May 2011

Potential Hazards	Controls Required	
Chemical exposure	•	
Lone Working	•	
Lack of Supervision	•	
Sudden Illness and/or Medical Emergencies	•	
What other Hazards could be present and what effect will they have on the student, fellow students employees?	•	
Category of Supervision Required		
Category	Level of Risk Present	Tick one
Category A	The risks associated with the work and/or the inexperience of the worker are such that the work must be supervised directly by a competent person (the supervisor or his/her authorized nominee), at least until the supervisor is satisfied that the student can follow correctly the appropriate scheme of work. Note: this might apply only to a small section of the whole project.	<input type="checkbox"/>
Category B	The risks associated with the work and/or the inexperience of the worker is such that the work may not be started without the supervisor's or his/her authorized nominee's advice and approval.	<input type="checkbox"/>
Category C	The Risks are such that the work requires considerable care but it is considered that the worker is adequately trained and competent in the procedures involved.	<input type="checkbox"/>
Category D	The risks are low and carry no special supervision requirements.	<input type="checkbox"/>
