New MacBook Pro

A touch of genius.

Released
June 2017

It's razor thin, feather light, and even faster and more powerful than before. It has the brightest, most colorful Mac notebook display ever. And it features the Touch Bar — a Multi-Touch enabled strip of glass built into the keyboard for instant access to the tools you want, right when you want them.

MacBook Pro is built on groundbreaking ideas. And it's ready for yours.

New iMac Pro

Power to the pro.

Pros love iMac. So when they asked us to build them a killer iMac, we went all in. And then we went way, way beyond, creating an iMac packed with the most staggeringly powerful collection of workstation-class graphics, processors, storage, memory, and I/O of any Mac ever. And we did it without adding a millimeter to its iconic all-in-one design. So everyone from video editors to 3D animators to musicians to software developers to scientists can do what they do like they've never done before. Introducing iMac Pro. A lean, mean dream machine.

Available
December

New HomePod

The new sound of home.

HomePod is a powerful speaker that sounds amazing, adapts to wherever it's playing, and together with Apple Music, gives you effortless access to one of the world's largest music catalogs. All controlled through natural voice interaction with Siri.¹ It takes the listening experience to a whole new level. And that's just the beginning.
