

Job Task Analysis Form

For each hazard to which employees in your unit may be exposed (identified in the Work Process Hazard Assessment Form), please list and describe the job task, the associated hazard (specific chemicals/biological agents/physical hazards), any control measures in place, and any personal protective equipment used or needed in the table below. Please consult the safety data sheet for products used in the workplace. If you are unsure as to the level of exposure or if exposure monitoring is desired, contact the Environmental & Occupational Health Unit at (608) 890-1992 or eo@uhs.wisc.edu.

Work Unit:

Supervisor:

Employees Covered under this Assessment:

Job Task	Task Description	Associated Hazards and Locations	Control Measures in Place	PPE	Comments
