Renovating your property from concept to completion

Services

Design

Renovation Concepts Design service aims to capitalise on your property's unique features and enhance them to suit your lifestyle. Success can often be achieved by redefining the layout of an existing home, without having to undertake major and costly additions.

Renovation Concepts can also guide you through the finishing touches of your renovation project to bring your home's personality to life through clever, tasteful styling you will love and your friends will envy.

Manage

For most people, renovating is a daunting prospect. Knowing where to start and having the time, knowledge and confidence to deal with trades and negotiate competitive rates is simply not in everyone's repertoire.

Renovation Concepts offers a comprehensive project management service to remove all the question marks (and stress) from the process for you. The team will help with the design and engage the best tradespeople and suppliers to work on your home renovation. On site performance and workmanship is carefully managed by Renovation Concepts to ensure your project is delivered on time and within budget, leaving you to enjoy the process at arm's length.

Consult

If you are unsure whether your home is worth renovating and/or extending, or you are assessing whether to demolish and build, or even sell and buy elsewhere, Renovation Concepts can help you make sense of your options.

Renovation Concepts Consulting service will help you make objective and informed decisions based on what you wish to achieve and the options available to you.

Our Renovation Consulting service is also perfect for people seeking advice on the renovation potential of a property, offering guidance on which property will most benefit from renovation in order to fit your budget and lifestyle.

The Renovation Concepts Difference

Choosing Renovation Concepts to consult, design and manage your renovation provides you with numerous benefits, including:

- A stress free home renovation experience by dealing only with your Renovation Concepts Project Consultant whose sole purpose is to manage the timeliness and quality of your renovation project from the beginning until the keys are ready to be handed back at the end.
- Your Project Consultant will free up your time by managing all trades and contractors, overseeing the project timeline and purchase orders and identifying and planning solutions to problems that may arise along the way.
- Renovation Concepts are the 'meat between the sandwich', representing you every step of the way to ensure your project is delivered on time and to the highest quality standards.
- Your Project Consultant will be on site regularly to oversee the quality of workmanship being carried out by trades and to ensure the project is progressing as planned.
- We simplify the paper trail by employing highly efficient processes that summarise the financial details of your project in real time so you know exactly where your project is in relation to the overall budget.
- With more than 40 years combined construction and property related experience and access to a wealth of knowledge and experience amongst our extended team of qualified tradesmen and suppliers, we know how to make your renovation dream a reality without you having to acquire the skills of a professional renovator in order to manage it yourself.

You've heard the horror stories

Undertaking a renovation of any size can be fraught with danger for the novice DIY renovator or owner-builder. Even experienced renovators can be tripped up by a lack of up-to-date knowledge of industry regulations and policies.

The majority of complaints we hear from home renovators relate to budget blow outs, poor quality workmanship, contractors who don't turn up and time frames that have blown out causing a real cost in both time and money.

Most DIY renovators spend an average of six hours a day managing multiple trades, negotiating project timelines, sorting out problems and processing paperwork.

Here at Renovation Concepts we know your time could be better spent elsewhere, so the first decision as to whether you need Renovation Concepts to help you manage your project should be based on whether you have the time and know-how to manage your own renovation.

If the answer is no, you definitely need us, and we want to help.

Discover your property's potential and bring its personality to life with Renovation Concept's stylish renovation design concepts and innovative project management.

The dedicated Renovation Concepts team led by Deb Pearcey is Perth's leading residential renovation, design and project management business. Renovation Concepts works with home owners, investors and developers to maximise investment and streamline the renovation process from concept to completion.

Whether your renovation is for the home you occupy or to capitalise on the potential of an investment property, Renovation Concepts will bring your renovation or addition to life with detailed planning, sound knowledge and experience, extensive industry contacts and a hands-on approach to project management.

Your Renovation Concepts Project Manager will work alongside you and carry your project through from the beginning until the keys to your newly renovated property are ready to be handed back.

Want to find out more?

Contact Deb Pearcey for a chat or to arrange an initial consultation meeting at the property you are intending to renovate.
