"RSA 188-E:3 Construction or Renovation of Regional Vocational Centers.

I. The rules shall include criteria which guarantee potential sending districts an opportunity to enroll students in the regional vocational program, and basic criteria for planning such facilities through cooperative development of plans by the vocational education staff of the state department of education and the local school district's staff. When such plans appear to be both educationally and financially acceptable, the department's vocational staff shall recommend to the commissioner that they be approved for funding.

Provision of the site, parking, and other related areas shall be the responsibility of the local community. Site work, including but not limited to cut and fill work, compaction, demolition, relocation of utilities, relocation of roadways and sidewalks, and similar work within an area extending to one foot beyond the outside edge of the exterior walls of the building shall be eligible for grants under paragraph I.
