### FOOD SALES / CATERING TENDERS

Priority will be given to local producers of locally farmed or produced products. Food provided as part of a commercial activity is governed by food laws. Hygiene, handling, packaging, storage, display, surfaces and disposal of waste/exposure to contamination - for food and associated equipment, must all meet the required standards. Fresh goods should be covered by spit guards/appropriate food covers at the event and should be appropriately stored/refrigerated overnight and in pest proof containers. You are expected to provide hot water for hand washing purposes – hand sanitizer alone is not adequate. There is not a permanent water supply on site, so please bring with your enough water to service your stand. Drinking water will be made available on site. Catering stands must submit their food rating at the time of booking.
