

Bathroom Remodel Planning Worksheet

Category	Brand/Model	Cost	%	Avg. %
Cabinetry*		\$		16-20%
• Cabinets		\$		
• Hardware		\$		
Countertops*		\$		10-12%
Electrical*		\$		1-7%
Fixtures & Fittings*		\$		
• Shower		\$		11-13%
• Bathtub		\$		8-12%
• Sink(s)		\$		3-7%
• Toilet		\$		2%
• Bathroom Fan		\$		1-2%
Flooring*		\$		8-10%
Lights & Lighting *		\$		4-5%
Plumbing*		\$		1-3%
Demolition		\$		1-3%
Misc.		\$		2-3%
Unexpected/Overages		\$		10-15%
TOTAL BATHROOM REMODEL BUDGET		\$		100%

* Be sure to include installation costs unless using a handyman, bathroom builder or general contractor.

NOTE: Contractor Fees
Handyman and/or builder/contractor markup costs are not included. These fees vary from area to area, and by each contractor's experience level.

It's not unusual to see markups of 30-50% or more. So for example, a job costing \$10,000 in materials at a 40% markup would total \$14,000 with contractor fees. That may sound like a lot, but keep in mind that contractors must make a profit,

pay for overhead, cover salary costs, pay for insurance, etc. And, good contractors bring a wealth of knowledge to remodeling projects.
