

CREATING IDEAS, BUILDING FUTURE.

OSWAL INFRASTRUCTURE LIMITED

www.oswalinfra.com

> PROFILE

Oswal Infra is a global solution provider of technology-based "Design, Build & Install" Process Skids & Packages such as Nitrogen Generation, Glycol Dehydration, Early Production Facilities, Fuel Gas Conditioning Package, Fuel Gas skids, Dily Water Skids, Chemical Dosing Skids, Manifold skids, Separators, Pressure Vessels, Heat Exchangers etc. for Oil & Gas, Power, Chemical, Refineries, Steel & Fertilizers plants.

Oswal Infra also provide the complete solution as engineering, procurement & construction company for Utility, Tank Farms & Plant Piping.

We in recent times have made some strategic acquisitions and formed important associations to help achieve our vision of becoming a globally renowned company.

VISION

To be a globally respected company that provides world class engineering and automation solutions to customers through continuous improvement driven by innovative technology, commitment and teamwork.

MISSION

Being a leader in Engineering, Procurement & Construction. Oswal Infra is committed to provide Modular Package solutions to all our clients.

> PROCESS EQUIPMENTS > PROCESS SKIDS > PROCESS PACKAGES > AUTOMATION > EPC

> THE OSWAL GROUP

METAL FORGE (INDIA)

Metal Forge India is pioneer in manufacturing of Formed Pipe Fittings and Flanges.

OSWAL INDUSTRIES LIMITED

Oswal Industries Ltd. established in 1985, is now a dominant player in the Industrial Valves industry in India and abroad.

OSWALINFRA CREATING IDEAS, BUILDING FUTURE.

Oswal Infra Ltd. is a global solution provider of technology-based 'Design, Build & Install' Process Skids & Packages for Oil & Gas, Power, Chemical, Refineries etc.

NEOSEAL ENGINEERING

Neoseal Engineering Pvt. Ltd. established in 2013, is into manufacturing all types of Industrial Gaskets for petroleum refineries and other industrial projects.

NIMBA NATURE CURE

Nimba Nature Cure a project led by The Oswal Group' is reality of a vision to build an health resort to refresh and rejuvenate routine life.

OSWAL TECH VENTURES

Oswal Tech Ventures Ltd. was formed to help with investments for providing a boost to Innovative and Creative technological ideas in the market.

> THE OSWAL INFRA GROUP

Oswal - Padua Infrastructure Limited - NIGERIA

Oswal - Padua Infrastructure Limited, a company established with a vision to contribute in the Oil & Gas sector as well as other process industrial sectors in the NIGERIAN Territory.

Since its inception in 1986 with Metal Forge, we have come a long way with successful ventures spreading across various industrial sectors.

ECIS Group SRL - ITALY

The year 2016, ECIS Group was acquired by Oswal Infra, with a new vision of spreading its outreach globally. We strive to achieve our goals under the new management. This step will strengthen our technologies, technical expertise and financial support.

> OUR ALLIES

TG Engineering - CANADA

An official Business Partner of "TG Engineering" located in Canada. TG Engineering is going to extend their design and engineering support to Oswal for critical modular skid packages and process equipment for different process industrial sectors particularly Oil and Gas sector.

Oswal Infra has formed strategic alliances and acquisitions with an aim for providing quality services and worldwide growth.

NGL TECH - MALAYSIA

NGL Tech is a technology development and engineering company current technology is particularly suited to upstream Oil & Gas production facilities in marginal or unconventional field developments. These include Floating Production Storage and Offloading systems (FPSOs), Mobile Production Units (MOPU), offshore platforms, Early Well Test (EWT) and production systems as well as Coal Seam Gas production systems.

PESO

> ENGINEERING & TECHNOLOGY

We have a dedicated engineering team to provide a customized solution to suit clients requirements. All our products and services takes into the best engineering practices, compact design, economy of scale and are manufactured in accordance with internationally accepted codes and standards.

We have qualified engineers with diverse backgrounds and hands on experience using various computer software to optimize design and ensure high productivity/efficiency.

By acquiring Lark Consulting Engineers, we continue to improve in different disciplines of Process, Civil, Structural, Mechanical, Piping, Electrical and Instrumentation coupled with our in house engineering capabilities.

We have also formed strategic associations with TG Engineering Canada & NGL Tech Malaysia in process to provide quality, innovative and customer focused services to our global clients.

- **AutoCAD 2014**
CAD Design
- **E-Tank**
Storage Tank Design
- **PV Elite**
- **HTRI**
- **PIPENET VISION**
Fire Protection System Design &
Hydraulic Analysis
- **SOLID EDGE**
- **HYSYS**
- **PDMS**

*Software used are in-house and some of them are out-sourced.

> PROCESS EQUIPMENTS

Oswal Infra is engaged in Design, Engineering and Manufacturing of Coded and Non-Coded Pressure Vessels, Shell and Tube Heat Exchangers, Distillation Columns, Reactors, Filters, Flare Stacks and other critical process equipment required in Oil & Gas, Petrochemical, Refineries, Water Treatment Plants, Refrigeration Plants, Chemical and Fertilizer Industries.

● Pressure Vessels

● Heat Exchangers

● Flare Stacks

● Tanks

● Filters

● Columns

● Reactors

> PROCESS SKIDS

Oswal Infrastructure has vast experience in manufacturing Skid Packages that allows process equipment to be assembled on a pre-fabricated base and mounted on to a frame or skid structure to reduce project lead time, site work and commission plant on fast track basis.

- Gas Pressure Reducing & Metering Skids

- Gas Conditioning Skids
- Lube Oil Skids
- Valve Stations

- Fuel Forwarding Skids
- Manifold Skids

- Two Phase / Three Phase Separator Skids
- Condensate Recovery Skids

- Chemical Injection And Dosing Skids
- Launching And Receiving Traps

- Other Customized Process Skids

> PROCESS SKIDS

- Fuel Gas Train Treatment Skids (ESD, Filtration, Metering, Analysis, Heater, Reducing)

- Gas Pressure Reducing Stations And Final Filtering For Gas Turbine

- Gas Pressure Reducing Stations For Auxiliary Boilers
- Meter Provers
- Gas Odorizer Systems
- Fuel Gas Conditioning Skid

- Chemicals Injection Skids (Corrosion Inhibitor, Scale Inhibitor - Demulsifier, Pour Paint Depressant, Antifoam, Methanol, Glycol, DRAG Reducing Agent)

- Chemical Dosing Systems for Water-Steam Cycle and Water (Raw Water Treatment, Make-up Water Tower, Desalination, Potabilization, Waste, Biological)

- Chemical Dosing Systems for Cooling Water Towers (Biocide, Biodispersant Sodium, Hypochlorite, Sulphuric Acid, Oxygen Scavenger)

> PROCESS PACKAGES

Oswal Infra has a wide range of experience in providing Process Package Solutions to related sectors, we have successfully delivered packages through our expertise and acumen. In the year 2017 Oswal Infra has agreed on technology association with NGL Tech Malaysia, this is to provide customer focused and innovative process solutions for the oil & gas industry.

Our suite of patented technologies offer superior performance and cost effective solutions for a range of applications. A team of highly experienced and competent engineers, support activities including R&D, multi-discipline engineering services, procurement, fabrication and leasing including operations and maintenance of our proprietary systems.

- Early Production Facilities (Manifold, Well Test Production, HP & LP Test Separator, Slug Catcher, Oil Stabilizer)

- Gas Dehydration / Dew Pointing System Packages, Based on Glycol (TEG) Absorption / Regeneration Process

- TEG - MEG Regeneration Packages
- Molecular Sieves Bed Absorption Process, Low Temperature Separation

- Nitrogen Production Packages :
Membrane & PSA
- Instrument and Service Air Packages

- Trucks and Rail Tankers Arm Loading Systems
- Nitrogen - Oxygen Production Station
- Diesel Power Generation Packages

- Water Treatment Packages (Primary
& Secondary Water / Biological)
- Fire Fighting Packages

> AUTOMATION

At Oswal Infrastructure we make sure that all our customers' requirements are fulfilled, aiming at complete customer satisfaction and at reaching our own goals. We consider our customer as our strength and our employees as our assets, thus obtaining increasing performance levels and a renowned name. Our target is to become the market leader by providing tailored Turn-Key solutions to the Oil & Gas (Upstream and Downstream), Petrochemical and Power Generation Industries and to enhance the performance, productivity and efficiency of our customers.

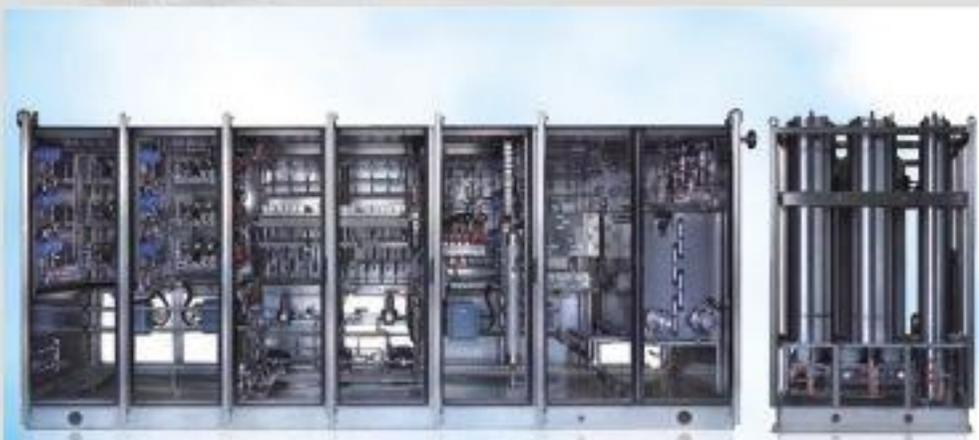

- Analyzer Shelter Packages
- Environmental Monitoring Systems (CEMS)

- Sampling Systems
- Sampling Conditioning Systems

- Analyzer Systems
- Analyzer Cabinets
- Analyzer Shelters

- Sampling Conditioning Water Systems
- Oil in Water Monitoring Systems
- Gas Analyzer Systems

- Wellhead Control Panels
- Electro - Pneumatic Control Panels

- Hydraulic Power Units

> EPC

ENGINEERING PROCUREMENT CONSTRUCTION

Oswal Infra brings together a team of engineering and project experts with experience of setting up specialized industry and utility projects globally. With a dedicated team of technical, commercial and management experts, Oswal Infra provides end-to-end solutions and offers multi-disciplinary design, engineering, procurement, construction and project management services. It is capable of scaling up operations in the shortest turnaround time with strong focus on quality & combining aesthetics with strong business sense. Competent specialists drive its fast-track turnkey delivery, product diversity and technology driven strengths.

● Plant Piping

● Tank Farms

● Utility Packages

● Group Gathering Station

● Gas Compression Station

● Cross-Country Pipeline

> MANUFACTURING FACILITY

Our manufacturing facility is well equipped with state of the machines like

- Welding Facility
- Plate Rolling M/C
- EOT Cranes
- Plasma Cutting M/C
- Plate & Pipe Bevellers
- Blasting & Painting Booths

Our facilities follow strict HSE standards.

> GLOBALIZATION

Oswal Infrastructure Ltd. has delivered many projects worldwide, we have also successfully acquired and partnered with firms, our vision is to expand as a globally respected company.

WE SERVE

Fertilizers

Oil & Gas

Refineries

Power

Steel

LNG Terminals

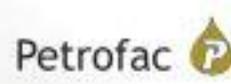

Petrochemicals

> CLIENTELE

The key to our client service is our seamless integration of our functional expertise with deep industry domain knowledge on a global scale.

We have necessary Engineering and project execution capabilities coupled with state-of-the-art manufacturing facilities to serve different process industrial sectors with the supply of process equipment and modular skid packages. Core industrial sectors presently catered by us particularly include Oil and Gas (Upstream, Downstream and Mid-Stream), Fertilizers, Chemicals, Petrochemicals, Power and Energy. Given below is the list of prestigious customers with whom we have directly or indirectly done some business over these years.

OSWAL INFRASTRUCTURE LIMITED

CORPORATE OFFICE & WORKS

Block No. 258, Ahmedabad - Mehsana Expressway, Village - Ola,
Post - Isand, Taluka - Kalol, Dist. Gandhinagar - 382 740, Gujarat, INDIA.
