---

## Management Team

### **Pramod S. Mohite** | Managing Director

Pramod Mohite, after completing his Engineering in 1987 from Mumbai University, worked with a few renowned construction companies, before setting up on his own. With meagre resources and limited contacts, he pushed himself ahead by securing small construction contracts in residential and industrial sector in and around Mumbai. His dedicated work and intelligent efforts rewarded him with larger civil construction projects. Now, possessed with medium and large infrastructure project management skills, men and materials, Pramod leads and directs Mohite Infraprojects to undertake and execute complex industrial, commercial and residential infrastructure projects.

### **Satish G. Tumne** | Technical Director

Satish Tumne, a Civil Engineer, is a veteran in the civil construction industry with a hands-on experience of more than 40 years to his credit. He joined Mohite Infraprojects in 2005 and has spearheaded Project Planning, Engineering and Executing responsibilities. Satish Tumne, earlier worked as a Consultant to Construction Engineering firms guiding them to execute civil contracts and in logistics support. Equipped with a team of highly trained Project Engineers, Satish Tumne has executed more than 12 industrial civil construction projects for Mohite Infraprojects.

Our Team includes high caliber professionals at our construction sites supported by an efficient back office operations all reporting directly to the management team.

The site operations team, includes

- Project Managers reporting directly to our Technical & Managing Director
- Project Supervisors
- Site Civil Engineers
- Site Administrators and Site Office Support
- Labour Supervisors
- Labour Contractors
- Trusted Sub-Contractors
- Maintenance Engineers

## Our Clients

## Quality Policy Statement

Mohite Infraprojects Private Limited strives to achieve the highest quality standards of building and civil construction services within the Indian Construction industry and intend to position themselves as a progressive and fast growing contracting organization by continuing to provide client satisfaction by adopting and operating safe, effective and efficient practices.

## Safety Policy Statement

It is our company policy that accident prevention be a prime concern of all employees. This includes the safety and well-being of our employees, subcontractors, and customers, as well as the prevention of wasteful, inefficient operations, and damage to property and equipment.

## Our Processes

- We understand client needs and their business requirements.
- We win projects and contracts, not solely on price but through innovation and value addition.
- We continually strive to improve our performance through continuous analysis and regular improvement of business processes.
- We develop our staff potential through appropriate training and guidance.
- We develop and nurture a positive commitment to quality.
- We create an environment of teamwork and cooperation that enables our staff, labor contractors and workmen to coordinate and execute the project effectively.
- We work towards strengthening our relationships and encourage repeat business with existing clients.
