# WHAT is SWOT ?

- **SWOT** is a strategic planning method used to evaluate the **Strengths**, **Weaknesses**, **Opportunities**, and **Threats** involved in a project, organization, or in a business venture.
- **Strengths** are aspects or characteristics of the business, or project teams that give it an advantage over others;
- **Weaknesses** are aspects or characteristics that place the organization at a disadvantage relative to others;
- **Opportunities** are internal and external prospects that can improve organization's performance within the context;
- **Threats** are internal and external influencing factors in the environment that could cause trouble for the function or project.
- SWOT focuses on **internal** and **external** factors.
  - Internal factors may include: *Personnel, finance, fundraising capabilities, and board performance, etc.*
  - External factors may include: *Economic climate, technological changes, legislation, social culture changes, competitors, etc.*
- SWOT can be used in business corporations, governmental departments, and nonprofit organizations.
- SWOT can be performed for business planning, strategic planning, competitor evaluation, marketing development, and research reports.

# WHY Conduct SWOT ?

## SWOT analysis...

- Helps you focus on your strengths, minimize weaknesses and threats, take the greatest possible advantage of opportunities, and become outstanding in competitions.
- Helps you determine whether the objective is attainable; therefore, set achievable goals and objectives for the organization, as well as subsequent steps.
- Helps you dedicate to your mission, fulfill the vision, adjust to social context, achieve strategic goals, develop effective action plans, and conduct objective evaluations.
- Helps you gather meaningful information from your strengths, weaknesses, opportunities, and threats), in order to maximize the benefits of your evaluation and advantage.

# WHEN to Conduct a SWOT Analysis?

## Typical Program Stages for Nonprofits

**Stage One: Vision** - Imagine and Inspire

**Stage Two: Emergence** - Found and Frame

**Stage Three: Growth and Maturity** - Grounding and Growth

**Stage Four: Maturity and Sustainability** - Produce and Sustain

**Stage Five: Renewal** - Review and Renew

## A SWOT Analysis can be conducted in Any Stage!

During the life cycle, a SWOT Analysis can be used to:

- \* Fulfill an organization's mission and vision
- \* Facilitate an organization's emergence and growth
- \* Improve sustainability
- \* Promote innovation and renewal

In every stage, a SWOT helps us answer different questions:

- \* Stage One: Can this dream be realized?
- \* Stage Two: How are we going to pull this off?
- \* Stage Three: How can we build this to be viable?
- \* Stage Four: How can we sustain the momentum?
- \* Stage Five: What do we need to redesign?

## “X Organization”

As a nationally famous nonprofit organization, “X Organization” works to provide books for poor children in the US and developing countries. “X Organization” has been existing for more than 50 years at a town in western America. It collects new books provided by book suppliers, and secondhand books donated by public, and delivers books to poor children in the US and oversea. “X Organization” accepts national and international applications for these books through its website and mailing. The applicants may include schools, education agencies, families, or individuals. Its programs are funded by government grants, public and private donations. “X” operates primarily through volunteer efforts. It has a 14-member board of trustees, an 8-member advisory board, and 4 fulltime, paid staff, who are mostly female Caucasians.
