

50 Word Company Description

Townsend Security - *the encryption company*, provides NIST and FIPS 140-2 certified software and appliance solutions to protect sensitive data from loss, theft and abuse. More than 2,000 customers worldwide rely on Townsend Security's solutions to protect their sensitive data and meet evolving regulatory compliance requirements.

100 Word Company Description

Townsend Security, the encryption company, builds data protection solutions for compliance. Rely on our encryption, key management, tokenization, and logging solutions to protect your sensitive data from loss, theft and abuse whether it rests within, or is transmitted outside, of your organization.

Over 2000 companies worldwide trust us to secure their most valuable information while we provide them with assurance their data is secured to the highest level for compliance. Our AES encryption solutions are NIST certified and our encryption key management appliances are certified to the FIPS 140-2 level.
