

## Simplify accounting workflow processes

### CPA Partner

#### Business Challenge:

Multiple hardcopy documents for clients consume valuable storage space and are difficult to access and manage.

#### Lexmark's Solution:

CPA Partner allows you to scan documents and convert them to digital format, as well as implement other workflow optimizing features.

#### Overview

The CPA Partner software bundle simplifies accounting workflow processes by providing a simple way to scan and store documents for easy management and retrieval. This solution saves you valuable storage space while making it convenient to access documents. You can also avoid damage that occurs when hardcopies are stored for long periods of time.

##### Scan to Practice

Securely scans and routes documents automatically to a network destination.

##### Remote Copy

Scan and distribute documents automatically to other output devices.

##### Eco-Copy

Reduce copy costs with eco-friendly on-screen commands.

##### Custom Screensaver

Use the background and idle screens that ship with the bundle, or replace them with your own custom graphics.

##### Accounting Forms

Select and print electronic forms from the Web or a shared drive.

##### Card Copy

Automatically print two-sided ID cards on one side of the paper.
