Nothing in this Agreement shall expand or add to any warranty for the Software set forth in the Software License Agreement or any other agreement with Wind River governing the use of the Software. The terms of this Agreement, including without limitation, any obligation of Wind River to provide support and maintenance hereunder, apply to Customers purchasing support and maintenance for Software licensed directly from Wind River. Except as otherwise agreed to in writing, this Agreement shall not apply to, or obligate Wind River to provide, any support and maintenance services for Wind River products that a customer obtains from or through any source other than Wind River, including, but not limited to, a distributor.

Only Customer Contacts shall be authorized to submit problem reports pursuant to Section 4.1 above, access Wind River Support Network and receive Updates, Patches, Upgrades, Workarounds, correspondence and other communications, as applicable, concerning the Software. - 4.4 License; Use Restrictions.** Subject to Section 7, Customer acknowledges that the Updates, Patches and any other software, as applicable, provided to Customer pursuant to this Agreement are subject to the terms and conditions of the Software License Agreement and any additional terms specified on the Wind River Support Network, and Customer agrees to abide by those terms and conditions. In addition, in the event of any conflict between the terms of this Agreement and the terms of any GPL License, the terms of the GPL License shall control for software governed by a GPL License and nothing in this Agreement imposes or purports to impose any restriction on copying, modifying or distributing any portion of the software licensed under a GPL License. For purposes of this Agreement, a "GPL License" means any version of the GNU General Public License, the GNU Lesser General Public License, and other substantially similar open source licenses that preclude the imposition of further restrictions on copying, modifying or redistributing materials subject to their terms.

- 5.2 Termination.** Either party may terminate this Agreement or any addenda hereto, including the "Premium Support and Maintenance Services Addendum," if the other party materially breaches its obligations hereunder and fails to cure such breach within thirty (30) days of the non-breaching party's written notice thereof (except for breaches of Section 7 or Section 8, for which there is no cure period). Wind River may terminate this Agreement or any addenda hereto upon the occurrence of any event which would permit Wind River to terminate the Software License Agreement or any other agreement between Wind River and Customer. In the event of termination or expiration of this Agreement or any addenda hereto, all fees or charges then due and payable, or to become due and payable in the future based upon services already rendered, shall be immediately due and payable to Wind River and Customer's obligations to pay such amounts shall survive the termination of this Agreement or any addenda hereto. The following sections shall survive any expiration or termination of this Agreement or any addenda hereto: Sections 4.4, 5.2, 6-12.

A lapsed support and maintenance period of three (3) years or less may be reinstated upon Customer's payment of reinstatement fees pursuant to Wind River's then current policy. Such reinstatement fees are in addition to applicable annual support and maintenance fees for Software. All fees are exclusive of taxes, and Customer shall pay all sales, use, services or other similar taxes, if any, applicable to the fees. If Customer purchases support for any copy of the Software Customer has licensed from Wind River, Customer must purchase support for all copies of such Software Customer has licensed from Wind River.

If Customer's Software License Agreement contains a Source Code license grant (including Software License Agreements with a "reference source code" license grant), then the terms and conditions of that license grant shall govern Customer's use of the Source Code Update, Patch, or Upgrade, as applicable. If Customer's Software License Agreement does not contain a Source Code license grant, Wind River hereby grants Customer a restricted, personal, non-transferable, non-exclusive, internal-use license to use and modify the Source Code provided in an Update, Patch or Upgrade, as applicable, solely to the extent necessary to remedy any Error and to incorporate the Update, Patch, or Upgrade, as applicable, into the Software as specified by Wind River.
