

## GREETINGS FROM THE GOLF LOUNGE

It is our pleasure to wish all Mont Choisy Le Golf Members everything of the best for 2016. We are well into 2016 and no doubt the year will bring challenges and joy. Meet the challenges head on and enjoy all the good that comes your way.

The response to our first sales phase has been most gratifying and the price of Individual and Family Membership now stands at Rs 950 000 and Rs 1,1m. We are currently understanding the demand of the corporate market and look forward to a positive response from the Mauritian business community when the corporate membership product is launched.

## COURSE CONSTRUCTION NEWS

There is understandably great interest in the construction of the Mont Choisy Le Golf course and it is our pleasure to provide an insight into course construction progress. When constructing a course, work takes place at multiple levels so that at any one time the course is in various stages of construction. Here is a global outlook of the current status:

- \* Holes 1 & 2 - sugar cane being removed
- \* Holes 3 - 5 - undergoing preparation for removal of the sugar cane
- \* Hole 6 - earthworks 70% done
- \* Holes 7 & 8 - sugar cane has been cleared and topsoil being stockpiled
- \* Holes 9 - 13 - bulk earthworks complete and final shaping taking place
- \* Holes 14 - 18 - bulk earthworks in process

The driving range has progressed exceptionally well, it is fully prepared and ready for the seeding process to begin.

## PROGRESS ON CLUBHOUSE

The finalisation of the Clubhouse operational flow and design is in its final stages and it is expected that construction will have started by third quarter 2016. Great care has been taken to ensure the Clubhouse is in line with the club's ethos of sophisticated but relaxed.

Clubhouse Site

Nursery under Irrigation

Hole 14 from landing area to green

Chimney Hole - 15th, par 3 - view from green

Driving range

Water - the life blood of our course. The course will be fed by recycled water (in accordance with government standards) from the main storage dam via a series of canals to strategically placed ponds. These ponds will add natural beauty to the course and be ready for any wayward shot - so head down and follow through!!!

## SITE VISITS

Within the next month or so it is our intention to invite members to view the course first hand. More information on these visits will be communicated once the logistics are in place.

## COMMUNICATION WITH MEMBERS

This we regard as most important and will be communicating via various mediums such as this newsletter and newflashes when appropriate. Please refer to our website [www.montchoisygolf.com](http://www.montchoisygolf.com) and facebook Mont Choisy Le Golf to keep up to date with developments.
