

"Excelling today for a better tomorrow"

Production Planner

Climate Technologies is a part of the Celi Group of Companies, a privately owned Australian business which has manufacturing facilities in New South Wales and South Australia as well as sales and warehouse outlets in all mainland states.

We are currently seeking a person to take control of all facets of production planning at our Salisbury manufacturing facility.

Duties will include, but are not limited to:

- Translate sales forecasts, sales orders and warehouse replenishment reports into daily, weekly and monthly production plans
- Manage and execute the production plans ensuring that manufacturing resources are effectively and efficiently utilised
- Liaise closely with the Supply Chain Manager, Production Supervision and Warehouse Supervisors to ensure that production plans and warehouse replenishment is executed systematically without input constraints or late deliveries
- Monitor and advise the Production Supervisor on a daily basis when production manning levels are required to be increased or decreased
- Assist with the continuous improvement of the production planning process

Applicants will require:

- A minimum 5 years experience in a dynamic manufacturing environment
- Excellent working knowledge of ERP systems is required and previous exposure to Pronto XI is preferred
- Advanced level of MS Excel skills
- Excellent attention to detail
- Good written and verbal communication skills

Written applications, which should include a covering letter identifying particularly relevant skills and experiences, will be treated confidentially and should be directed to:

Chief Financial Officer,
Climate Technologies,
26 Nylex Avenue,
Salisbury, SA, 5108

or:
