Web Design

It used to be that all that you needed to market your company effectively was a business card and brochure. But times have changed. Today, you need a professional web site, one that will win the confidence of prospective customers and motivate them to act.

If you don't have a web site or if your current web site is not working for you, Dacy Media can help. We can get you online fast and ensure that your website delivers results.

Web Design, Redesign and Development

We'll design a web site that gives your company instant credibility and enhances your corporate image.

Internet Business Consulting

Using our knowledge of the web combined with our marketing expertise, we can provide recommendations for your Internet business.

Graphic Design

Your website should coordinate with all your printed materials. Our graphic designers can help with corporate branding, applying the same look as your website to your logo design, business cards, letterhead, brochures, ads, etc.

Macromedia Flash Animated Web Design

Flash lets you add movement, excitement and interactivity to your web site. We can assist you with Flash Introductions, Flash Presentations, Flash Menu Systems and more!

Web Site Hosting and Domain Name Registration

We offer several different web hosting packages to meet your needs for the page that we design for you. But first we'll help you select and obtain the best domain name(s) for your business.

Website Maintenance/Updating

Keep visitors coming back to your website by adding to it regularly. We can implement most changes in under 48 hours. Hosting clients receive a generous discount off maintenance and updating services.

DACY MEDIA

Video Production • Photography • Web Design

Payment Policy

- 50% of your projected cost is required to start the design process.
- Additional payments may or may not be required based on project length and size.
- The balance of the cost, is due in full at final delivery.
