Our services

Clients:

We work closely with our clients taking time to understand what their business and resourcing requirements are to ensure that we are able to match candidates technically and within the 'culture fit'. With scarce resources we understand how important it is to management to minimize the time and effort required to find qualified professionals suitable to individual needs that perform beyond expectations and are of high quality.

Candidates:

MAD Consulting believes in meeting candidates for face to face competency interviews before presenting them to clients. Candidates will be prepared before interviews on presentation skills, their required roles and client information with our specially designed interview guidelines.

Assessments:

We have aligned our risk assessments with MIE to verify our candidates ITC, (TransUnion and/or Experian), ID/Passport, Qualification and Criminal checks.

Conclusion:

We look forward to establishing a professional relationship with our clients, assisting with all recruitment requirements.
