Disclosure of Relevant Financial Relationships and Unapproved Uses of Products

It is policy at Penn Medicine Office of Continuing Medical and Interprofessional Education for individuals who are in a position to control the content of an educational activity to disclose to the learners all relevant financial relationships that they have with any commercial interest that provide products or services that may be relevant to the content of this continuing education activity. For this purpose, we consider relationships of the person involved to include financial relationships of a spouse or partner.

The intent of this policy is to ensure that Penn CME/CE certified activities promote quality and safety, are effective in improving medical practice, are based on valid content, and are independent of control from commercial interests and free of commercial bias. Peer review of all content was conducted for all faculty presentations whose disclosure information was found to contain relationships that created a conflict of interest relevant to the topic of their presentation. In addition, all faculty were instructed to provide balanced, scientifically rigorous and evidence-based presentations.

The staff in the Office of Continuing Medical and Interprofessional Education (CME and IPCE), **Anna Delaney, MBA** Chief Administrative Officer Director, Curriculum Office Academic Programs, **Zalman Agus, MD**, Senior Peer Reviewer and **Patricia A. Smith, DNP, RN-BC**, Penn IPCE Lead Nurse Planner have disclosed that they have **no relevant** financial relationships with any commercial interests related to the content of this educational activity.

Edgar Ben-Josef,, MD	Other Planning Committee Member	Nothing to disclose
Steven Feigenberg, MD	Other Planning Committee Member	Nothing to disclose
Alexander Lin, MD	Other Planning Committee Member	Nothing to disclose
John Plastaras, MD, PhD	Other Planning Committee Member	Nothing to disclose

Relevant financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received or expected
