- ✓ Skilled in quickly identifying and rectifying root causes of unplanned site & equipment shut-downs.
- ✓ Adept at prioritizing and multi-tasking in fast-paced, deadline-driven work environments.
- ✓ Experienced in supervising, mentoring, training, and motivating high-performance teams.
- ✓ Technically proficient in: MS Word, Excel, SCADA.

PROFESSIONAL EXPERIENCE

CANADIAN NATURAL RESOURCES LTD, Fort McMurray & Wabasca, AB

2011-2016

An oil and gas exploration, development, and production company with its corporate head office in Calgary, Alberta.

Commissioning Operator • 2015-2016

Charged with commissioning first and second stage cyclones, primary separation cell, natural gas, and utility air and water.

- Played key role on 8-member team that succeeded in getting extraction plant up and running.
- Managed commissioning walk downs, punch lists, tagging, and equipment labelling; operated thickeners and poly skids.
- Inspected contractor work on equipment, conducted walk thrus to check for accuracy, and generated reports on issues.
- Assigned to mentor, train, and coach personnel from other divisions.
- Ensured appropriate use of personal protective equipment.

Control Room Operator • 2011-2015

Monitored production and ran diagnostics on well performance; conducted daily checks and took meter readings.

- Conducted in-depth system checks of all plant equipment; obtained samples and adjusted treators.
- Identified safety hazards, and issued safe work permits.
- Facilitated new-hire training.

LEDUC AREA OPERATOR

PROFESSIONAL EXPERIENCE

STAR ENERGY UK, Alton & Winchester, UK

2005-2010

Star Energy was a British onshore oil exploration company until acquired by IGas Energy in December 2011.

Terminal Operator / Production Operator • 2006-2010

Promoted to serve as acting supervisor of 3 oil sites. Managed 3-4 direct reports and oversaw logistics, operations, and reporting.

- Maintained efficient operation of 4 beam pumps and 1 water injection well.
- Prepared oil loads for exporting; de-watered stock tank, and loaded trains with crude oil.
- Generated daily reports on oil and water production for upper management.
- Coordinated daily schedule for tanker movements and ordered trains.
- Assisted with rod pulls and hot washes; sampled oil loads for water.
- Oversaw terminal operations 2 days per week.

Trainee Field Operator • 2005-2006

Maintained efficient operation of 11 oil wells and 3 water injection wells.

- Troubleshoot unplanned site shut-downs, determined root cause of shut downs, rectified defects, and led re-start operations.
- Coordinated monthly maintenance servicing of all oil field equipment including triple x pumps and water pumps.
- Generated daily reports for upper management and partners including daily production figures, well operating pressure, current well conditions, cumulative averages, and shut-downs.
- Prepared loads for export, coordinated shift handovers, and managed site security.

CAREER NOTE: Performed in short-term role with **Clean Harbors** in Red Deer, AB as **Equipment Operator & Swamper**, 2010-2011.
